

Mobile Application User Guide

Introduction

The Boujee Cafe mobile app offers a convenient way for users to book seats and preorder their favorite meals. With a user-friendly interface, the app allows users to:

- Reserve seats at their preferred time and location
- Preorder food and beverages from the menu
- Customize orders based on personal preferences
- Browse the full menu and view detailed descriptions
- Track the status of their reservation and preordered items in real-time
- Access their personal dashboard to manage past and reservations
- Receive instant notifications for order updates and table availability
- Filter menu items by category, dietary preferences, or price range

Compatibility

Boujee Cafe's user-friendly app is compatible with all mobile devices. Below is a considered list of compatible devices. All Apple products require IOS 7.0 or later and all Android 7.0 or later

Help

Any questions, concerns, or issues regarding the app may be resolved by contacting the Boujee Cafe's support team. Clicking the "help" button on the app will prompt you to send an email to M+A's customer service department. Users may also contact our support team by phone or direct email

- boujeecafe@gmail.com

Installation

For Apple Devices:

Search 'Boujee Cafe App' in the App Store.
Install the application

For Android Devices:

Search 'Boujee Cafe App' in the Google Play Store. Install the application.

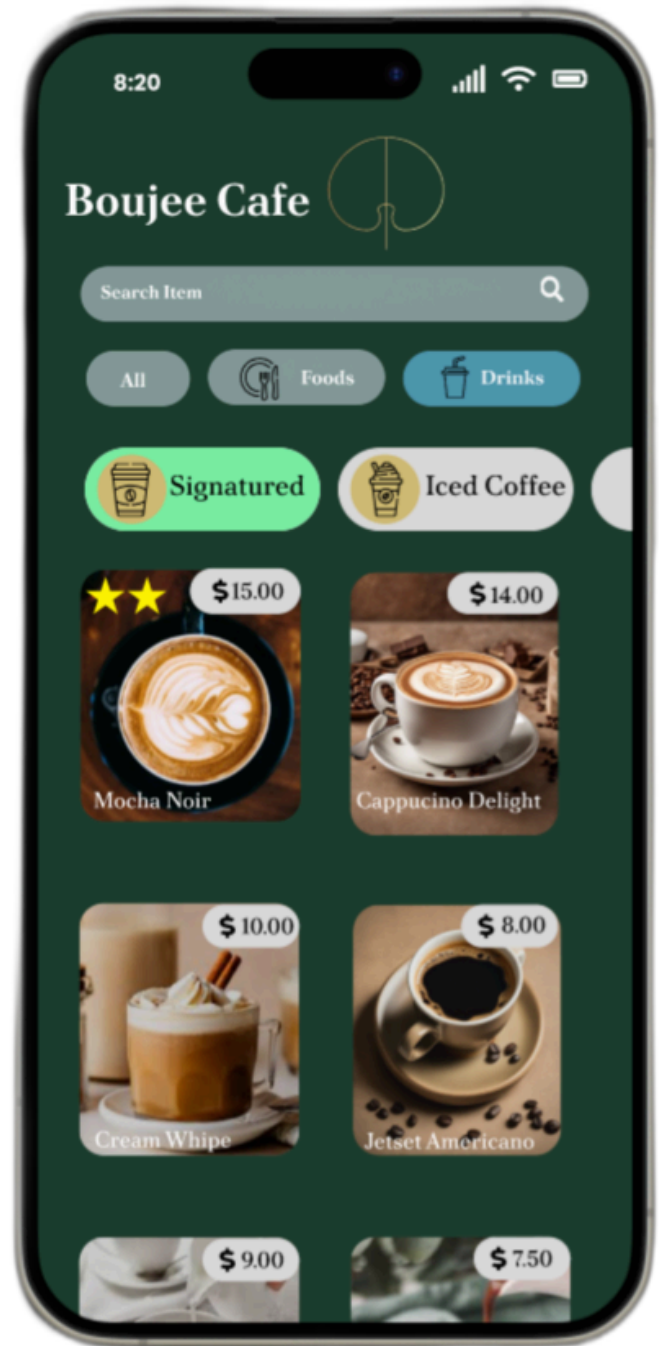

Home

Here's an explanation:

1. Search Bar: At the top, you can type in the name of any food or drink item you're looking for.
2. Category Filters: Below the search bar, you'll see filters for All, Foods, and Drinks. Tap on these to filter the menu based on your preference.
3. Highlighted Items: Items with special tags like "Signatured" (green) or "Iced Coffee" (gray) help you quickly find popular or themed drinks.
4. Menu Items: Scroll through the menu to view different food and drink options. Each item shows:
 - A picture of the item
 - The name
 - The price
 - Some items may have ratings or special highlights.
5. Tapping an Item: If you tap on a menu item, you can view more details, customize the order, and add it to your preorder.

This layout allows users to easily explore, select, and order their favorite items.

Customization & Order Screen

Here's how users can use it:

1. **Item Details:** At the top, you'll see the name of the drink, "Ivory Latte", along with a brief description of its ingredients and flavor profile, helping you understand the taste.
2. **Drink Size Selection:** Below the description, you can choose your preferred drink size. The available options are Small, Medium (selected by default), and Large. Tap on your desired size to update the order.
3. **Toppings:** You can personalize your drink by selecting from various toppings. The selected toppings (e.g., Whipped Cream) will be highlighted in green. Tap a topping to add or remove it from your order.
4. **Additional Requests:** There's a text box for Additional Request where you can type any special instructions or modifications, like "extra hot" or "no sugar."
5. **Price & Add to Cart:** At the bottom, you'll see the total price (\$13.00 for this example). Once you've customized your order, tap the shopping bag icon to add the item to your cart and proceed with your order.

This screen allows users to fully personalize their drinks and seamlessly add them to their cart.

Table Booking Screen

Here's how users can use it:

1. **Table Availability:** The green tables indicate Available seating options, while red tables are Unavailable (as shown in the key at the top). You can choose a green table for your reservation.
2. **Table Size Selection:** At the bottom, there is a slider that allows you to select how many seats you need. You can move the slider to choose between 2, 4, or 6 seats.
3. **Booking a Table:** Once you've selected your preferred table and number of seats, tap the "Book" button at the bottom of the screen to confirm your table reservation.

This screen makes it easy for users to see which tables are available and book the right size for their group.
